

Design, Collect, Analyze.

Design survey **3X** faster.

Survey design with IdSurvey is **extremely easy**. The graphic interface displays the questionnaire as the real interview, so you can easily use it. With a few clicks you can add or edit texts, **select questions from more than 50 types** and add complex **rules**.

If you want to **program surveys faster than light**, you can use IdCode, the programming language of IdSurvey. IdCode has a **surprisingly easy syntax** and doesn't require any programming experience.

IdCode runs parallel to the graphic interface so you can take advantage of the best of both. If you don't know the syntax of a specific function or question, you can use the graphic interface and then check how it's coded in IdCode.

Pro features

IdSurvey pro features combine the easiness of the interface with the power of the engine. You can quickly design **complex rules, loops**, update and create **variables**, interact with data from other surveys or integrate **third party tools**. Deploy your survey with several distribution channels: **email, sms, social media, multiple panels and multiple links**. Add simple and stratified **quotas** to efficiently work with your statistical sample. **Manage and monitor** telephone and face-to-face interviewers.

Multiple Languages

Create and manage **multilingual surveys** by simply **uploading the Excel files** of your translators. You can manage revisions by only exporting the parts of the questionnaire that were added or changed. IdSurvey will **automatically display the questionnaire in the language** set in the browser or in the database. Quick editing to the translations can also be done in IdCode with no need to export the Excel.

Phone, web and face to face. All together, for real.

ONLINE

Quickly reach respondents with web interviews. Choose one of IdSurvey **amazing responsive themes**, set your options and upload a logo with the intuitive interface. Enrich questions with **images, video or audio and downloadable files** in one click.

With **smart display**, the web interview is perfectly displayed on **any device**.

Invite your target and set reminders with **Email or SMS campaigns**.

Work with one or multiple third party panels or social media platforms using **dynamic URLs** or create customized links in order to track down the origin of survey responses. With IdSurvey no interview will ever be anonymous.

OFFLINE

Collect data wherever you are - **no internet connection needed**. IdSurvey app is available for **Android, iOS and Windows PC**.

The app has all the features available in IdSurvey including photo question, file attachment and **GPS** recording for an accurate field control.

You can **assign a list** of existing respondents to interviewers or work with the **anonymous distribution**.

The interviewer can suspend the interview and resume it later on and **synchronize collected data** whenever they have an internet connection.

CATI

IdSurvey has an intuitive interface that **easily leads your interviewers through telephone surveying**, directing them every step of the way.

You can **monitor your interviewers** progress online at any time. You can **set rules for calls**, decide call **priority** or **re-assign appointments** for a better management of the call center.

With **Click to Dial** you can quickly call respondents with one click, no need to manually dial the number.

You can also activate **Predictive Dialing** eliminating time that interviewers spend searching for available contacts and duplicating their productivity.

Scan and try!

ANALYSIS AND REPORT

Analyze, display and share survey results and progress in real time. Create unlimited reports choosing different types of charts and tables. You can easily configure data source, metrics and options to create the perfect visualization of your collected data.

Bring your collected data to life with customisable charts and tables.

Add filters and global breakout to focus just on the data that you're looking for.

Create unlimited reports and share them with your customers or external users.

Create breakout of charts and tables by crossing questions or contact fields.

Save time using the smart report automatically generated by IdSurvey algorithm.

Export charts, tables or entire reports in PDF, PNG, Excel and other formats.

Flexible licences

ONLINE

Licenses are sold as prepaid packs of completed interviews. Discount brackets are available to fit big and small activities.

- Just complete interviews are deducted.
- Optional Email and SMS licenses are available to purchase

OFFLINE

Licenses are sold as prepaid packs of completed interviews. Discount brackets are available to fit big and small activities.

- Just complete interviews are deducted.
- Free CAPI app

CATI

Licenses are based on the number of concurrent interviewers working on the CATI interface.

- Choose between permanent purchase, annual rent and daily license or mix them for maximum flexibility.
- Unlimited data collection
- Click to dial included
- Optional IdTalk PBX
- Optional Predictive Dialer licenses

Safe infrastructure

All your data is secure with IdSurvey OnCloud infrastructure. The server farm offers high efficiency and security with redundant servers, daily backups, SSL Security, up-time service 99,99%, up-time storage 99,999999999%.

As an alternative to our hosted solution, we can install the survey system on the customer's server for a complete management of the infrastructure and Microsoft SQL database.

Pro support

IdSurvey support team is ready to help you. When you purchase IdSurvey, you meet a team of professionals who can train you and guide you in designing and programming complex surveys. Basic support is free and guaranteed to all customers. If you need to, our scripting team can do the questionnaire programming for you, saving your time and energy. Our development team turns ideas and requirements into all-around easy features. With IdSurvey, you'll always have a software that's up-to-date.

Free admin, free hosting, no limits.

- Each installation includes up to 3 concurrent logins to the Admin interface for free
- Free Cloud hosting
- No limit in number of concurrent surveys
- Unlimited questions per survey
