About Kadence

We are Kadence International: the global boutique for data and insight

Kadence International is a global boutique market research agency, with over 27 years' experience.

With offices spanning Asia, Europe and the U.S., we have the global reach of a large agency, combined with the agility and personalized service of a small boutique.

Nimble and flexible, we collaborate across our global network to design and deliver the best research solution to meet your needs.

With award nominations from the key industry bodies in the US, Europe and Asia, we're recognized as a leading market research agency globally.

Our offices in the **UK**, **US** and **Singapore** are our regional hubs. These Centres for Excellence enable us to conduct research across the regions.

Our global footprint makes us the go-to partner for international research

Types of Research we conduct

By drawing on experts across our global boutique,
we make international research easy

METHODOLOGIES

SURVEY RESEARCH

Through CAPI, CATI or online surveys, using statistically robust sampling methodologies

EVALUATIONS

Kadence has the expertise of conducting evaluations using various methodologies including quasi-experimental methods and RCT

FORMATIVE

Expertise of conducting need assessment and formative research using theoretical models

MAPPING

Kadence has the strength to conduct large scale facility assessment and mapping studies

Our deep understanding of the SDGs and the various theoretical models provide us the flexibility to adapt our methods to various thematic areas

We're a trusted partner for a breadth of data collection methodologies

WE SUPPORT CLIENTS THROUGHOUT THE FIELDWORK PROCESS

RECRUITMENT

With a long heritage in B2B and hard-to-reach audiences, you can rely on us to build the most targeted sample. Our focus on finding engaged respondents ensures you receive rich and comprehensive data.

EXECUTION

If you're looking for a partner to support you in the field, we employ the best in the business. Our multi-lingual team know how to connect with your audience to uncover the deep insights you need to inform strategy development.

QUALITY CONTROL

From screening respondents right through to post data delivery support, we apply the most stringent quality control processes. You can rely on us to look after the smallest of details, so you can focus on the bigger picture.

We aim to keep everything in-house, maximizing efficient output and ensuring quality control throughout the project

SCRIPTING AND DATA-PROCESSING

All scripting, hosting, and data processing is executed via Kadence's Conformat servers for efficient and secure handling of information. Skilled specialists consult on complex quantitative analysis and advanced analytics.

FIELDWORK

From our international call centre through to qualitative moderation, we conduct fieldwork ourselves, India and internationally.

ENHANCED QUALITY CONTROL

By keeping all design and analysis in house we complete quality control checks that go beyond the usual checks. We are committed to driving further improvements within the industry.

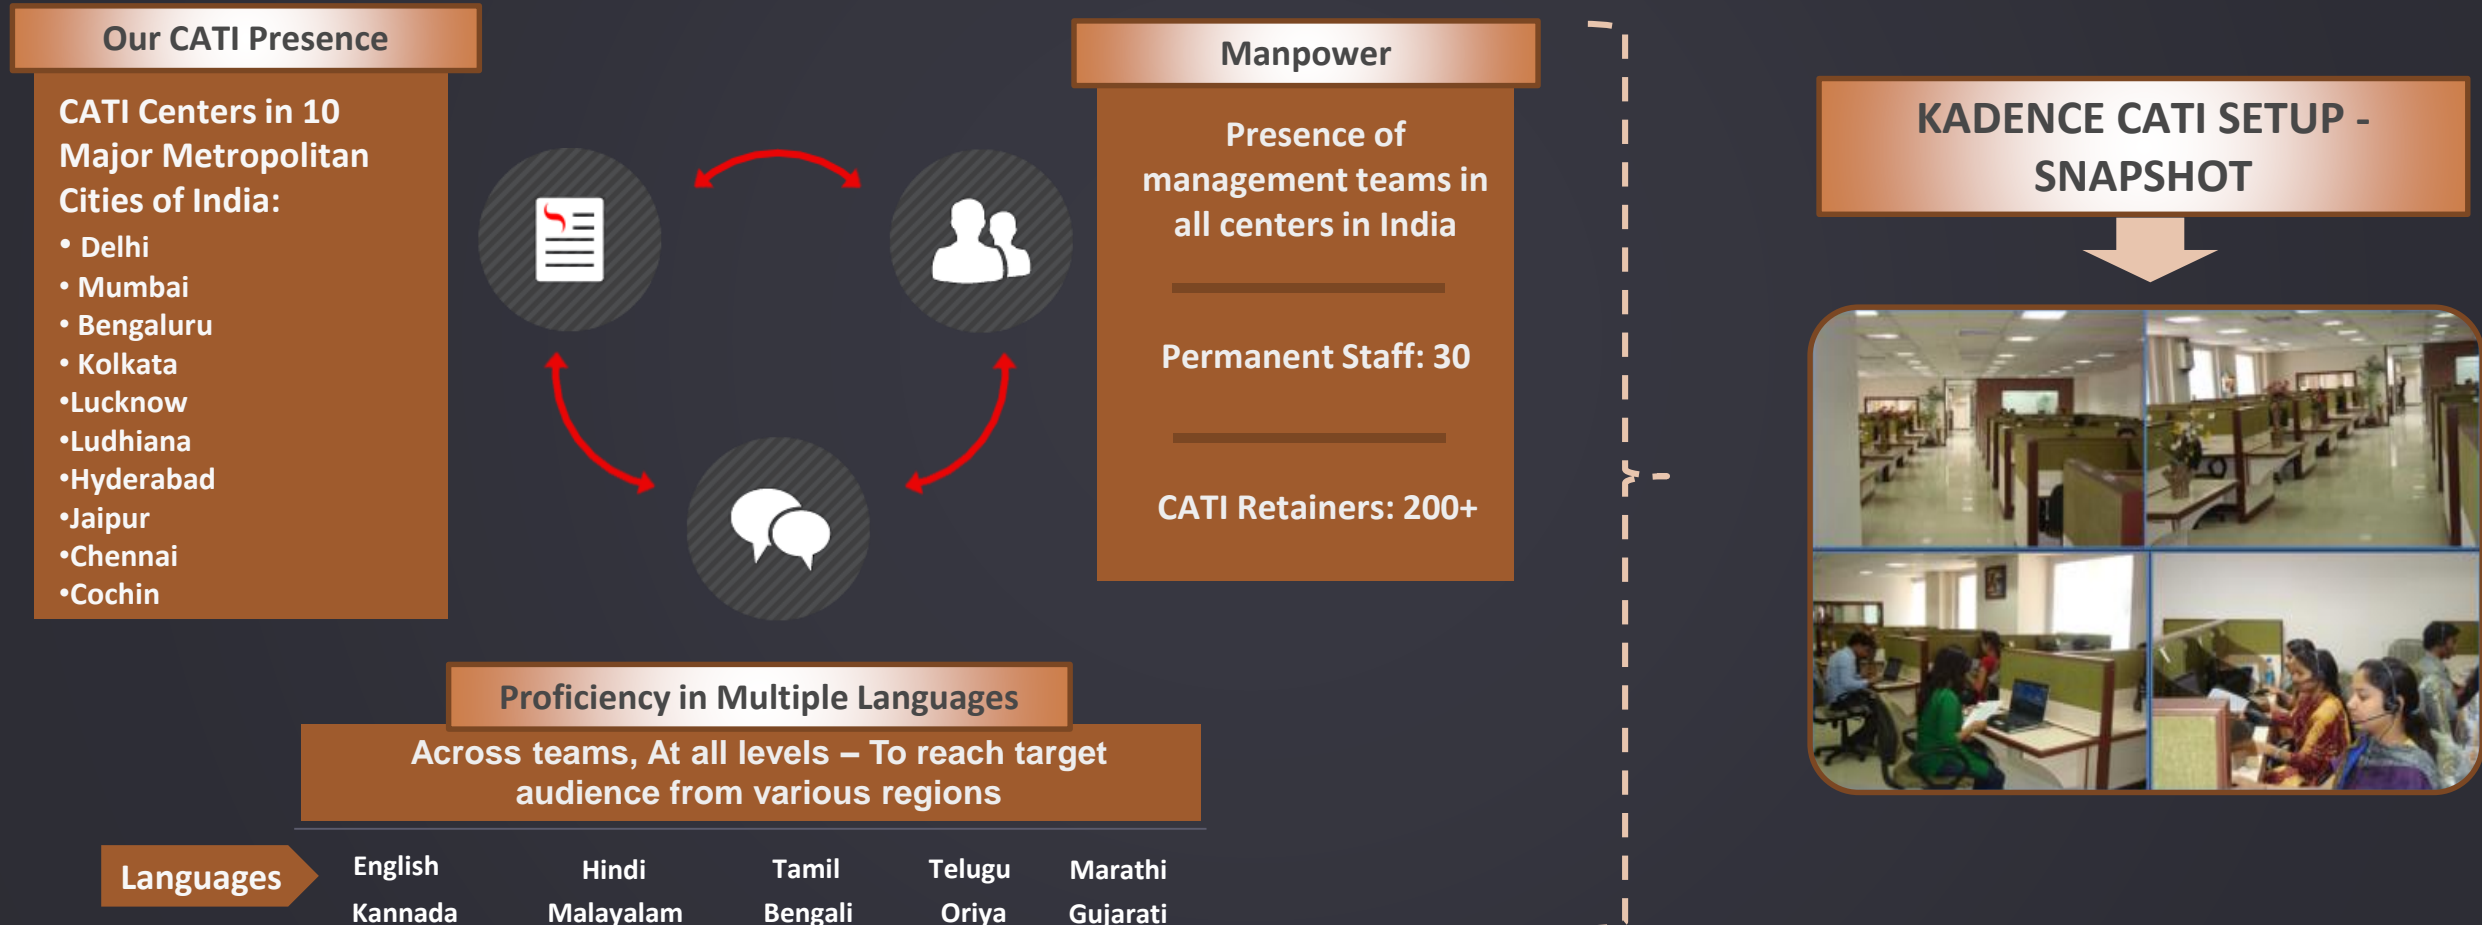

CREATIVE TEAM

Involved throughout the full cycle of a project, our creative team work with researchers to determine which design formats will best bring to life each individual story; including video, animation and infographics.

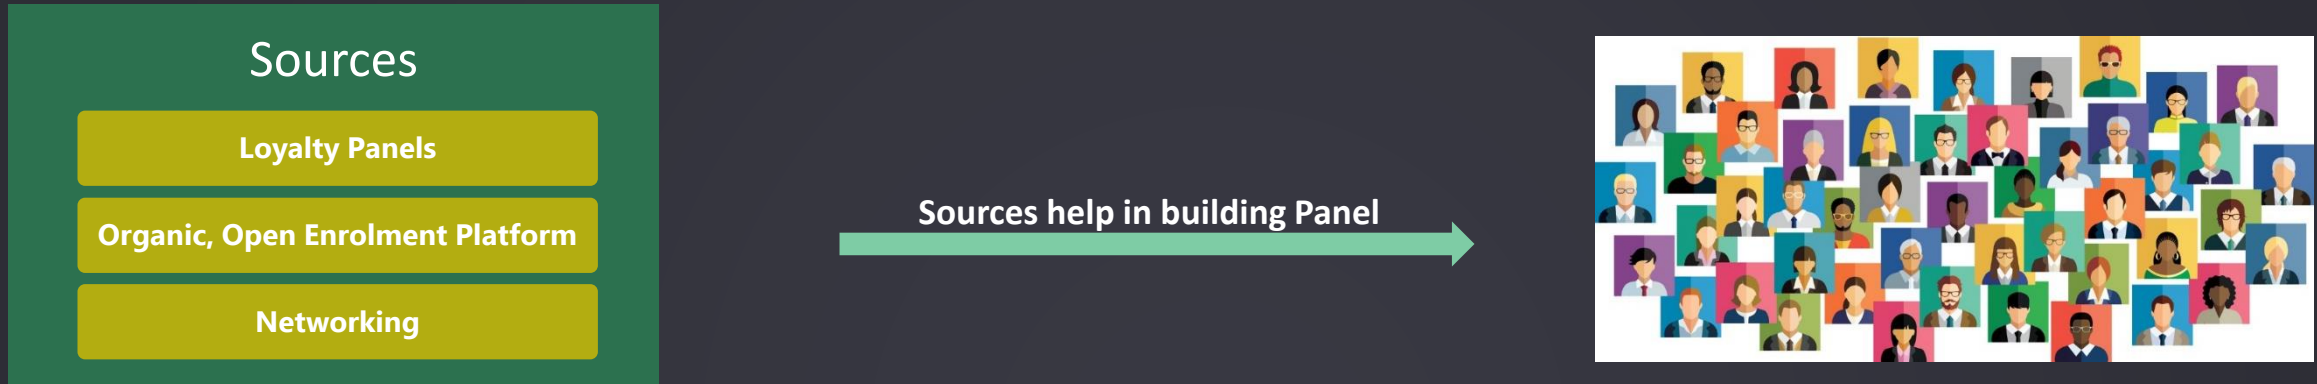

CATI - Infrastructure

Kadence has a *fully equipped in-house, multi-lingual call centre & web enabled 200+ CATI stations*, making it one of the biggest CATI centres in India!

Online Panel

How the panel interviews are conducted

The next stage is to know more of the recruited respondents. The process to understand is given below:

CAPI & CATI – Survey Software Program

Survey to Go and **Confirmit** allows us design complex surveys, deploy them on Tablets in Offline mode, capture responses with Geo-location, time stamps and export it in XL format which can be easily loaded into SPSS.

CREATE

- Templates
- Logic and branching
- Validations
- Branding and Logo
- Video, Audio, Pictures
- Multilingual
- 3rd Party Integrations

DEPLOY

- Web (email, browser)
- Mobile (App,HTML5)
- Password protection

CONDUCT

- Geo location
- Date and time
- Voice, Video, Images
- Offline or Online data capture

ANALYZE

- Basic analytic engine
- Basic charting engine
- Export of data to user for further analysis
- APIs

Implementation Model

Implementation Plan

Quality Culture

Overall Quality Measures

WALK THROUGH

Internal project meeting is conducted after project confirmation involving all the key members of the project. The goal is to ensure that everyone working on a project fully understands the key objective behind the project, project specification and their role for the assignment

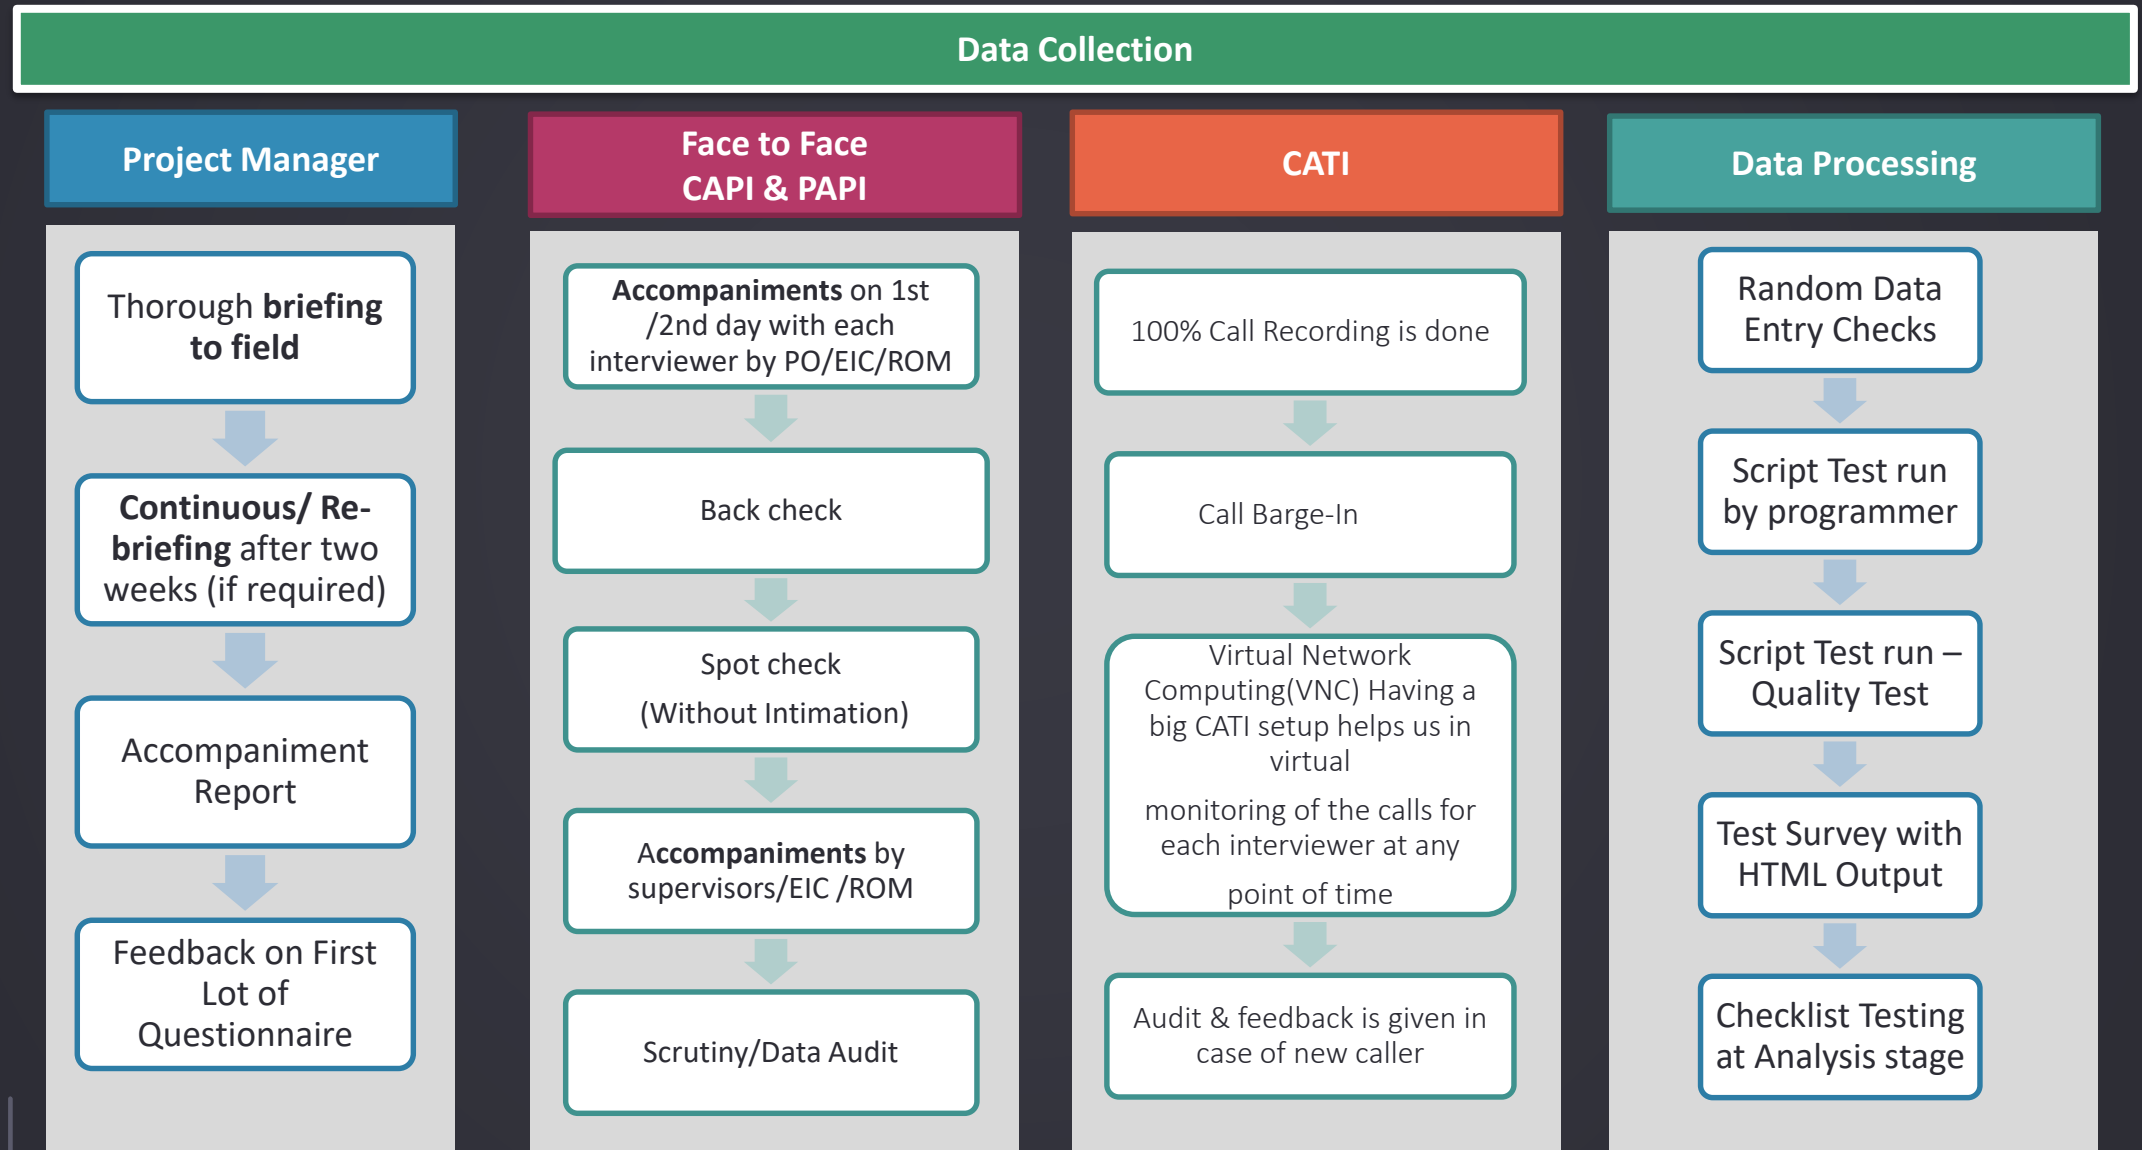

FIELDWORK REVIEW

The data received is reviewed as frequently as possible to obtain correct and best valuable information. Real time call quality auditing to keep a check mark on interviewer/respondent conversation, data accuracy, interpretation of the survey scripts

DATA COLLECTION REVIEW

Final data received is collected and is reviewed by data analysts. Cleaning of open ended responses, logics and interpretation, straight line responses and interview duration anomalies are reviewed and corrected thorough

Data Quality Process – Face to Face & CATI

Data Quality Process - Online Panel

Data Quality Process

Kadence is committed to ensuring the highest levels of quality and security across every project

IDENTITY VALIDATION

Relevant ID Checks for several "flags" in a browser's meta-data, such as language settings and server settings, that would indicate a likelihood of fraud. These flags are weighted and summed to produce a fraud score. Those with a high score being removed from the study

ID DUPLICATION

Our software prevents respondents from entering the same survey more than once.

DEVICE REPUTATION

We take a step ahead and verify if the respondent's device is not related to any fraud activity in the past.

EMAIL VERIFICATION

Our panelists are recruited using the double opt in system to form a credible panel pool.

PANELLIST VERIFICATONS

Through the unique ID provided at the time of registration, we monitor our panelists' activities and ensure that the inactive members are phased out from participating in surveys and the active members participate in only a limited number of surveys (2-3 on an average) in a month.
